

OFF CAMPUS EDUCATION PROGRAMS: RAP AND WORK EXPERIENCE PROGRAMS

The Registered Apprenticeship Program (RAP) is an apprenticeship program for high school students.

Traditionally, apprenticeships in Alberta began after students graduated from high school, however, some students identify their career interests at an earlier age and are ready to learn and practice their future trade while still in high school. RAP is an ideal program for these students.

RAP students are both full-time students and registered apprentices, dividing their time between an approved work site and their high school studies. They take regular courses such as English Language Arts, Social Studies, Science and Math in order to earn their Alberta High School Diploma or Certificate of Achievement.

The RAP apprenticeship ends when the RAP apprentice finishes high school. The RAP apprentice is then automatically registered as a regular apprentice and the credit earned while in the RAP program is applied to his or her apprenticeship through the **registered apprenticeship program**.

Work Experience

Off-campus education provides opportunities for junior and senior high school students to explore and expand their career interests, skills and knowledge related to work and other life roles.

You can investigate a variety of career opportunities through Work Experience placements within your high school career. It will allow you to gain practical experience as you apply and expand your knowledge, skills and attitudes in contexts that will assist you in making wise decisions regarding your future education, training and employment upon leaving senior high school and allow for the smooth transition from school to work and/or post-secondary institutions.

Offering students personalized pathways for learning in Off-campus Education, Apprenticeship Training and Dual Credit Programming.
